About us

Our story is actually an impressive example of entrepreneurship... This story, which started with the entrepreneur Cemil ARIKAN purchasing the glass mosaic factory in the Keşan district of Edirne, where he worked as a laborer, is now crowned with the Vetropool brand, which exports to more than 20 countries on three continents.

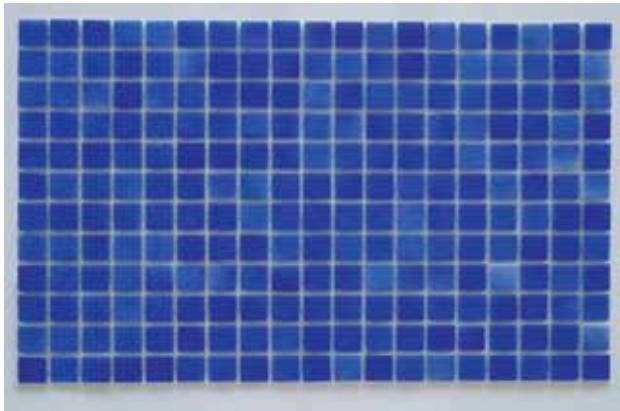

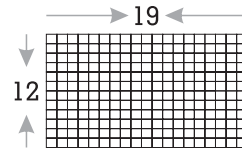

Our business, which has adopted 100% customer satisfaction as its motto, continues its new investments with the momentum of achieving sustainable growth with its environmentally friendly production technology and innovative products. Our company, with more than half of its employees being women, takes part as a main actor in many social responsibility projects.

Vision

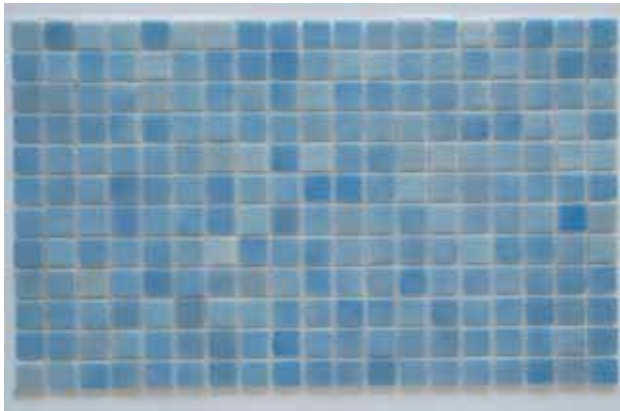

Whenever "glass mosaic" is mentioned anywhere in the world, the first brand that comes to mind is "Vetropool."

Mission

To be a pioneer in the sector by producing unique glass mosaic products that manage to keep internal and external customer satisfaction at the highest levels, touch "glass to life" with an environmentally friendly production approach.
